STAT

Dear [Redacted]

On October 10, 1960 we sent you a list and schedule proposing disposal of approximately 19,000 cubic feet of denazification records in the custody of the Federal Records Center, Kansas City, Missouri.

As you know, approximately 900 cubic feet of VIP and other dossiers are being retained for historical purposes, as well as about 8,000 cubic feet of OMGUS records relating to denazification policy matters. In addition basic biographic data were provided the German authorities when the work of denazification was turned over to the Laender in 1946.

The Departments of the Army, State, and Justice have concurred in our proposal to request Congressional authority for disposal of these records. While we do not wish to press for your decision, it will be helpful in our planning for the Center to know whether or not you agree with our proposal.

Sincerely yours

Everett O. Alldredge
Assistant Archivist of the
United States
Office of Records Management

On 8 December 1960 copies of the attached proposed disposal jobs were sent to the CI Staff for review and any expression of interest in the records involved. To date we have had no reply. The National Archives is now pressing us for a decision. I would appreciate your help in getting a reply from CI Staff.
